 Continuation Sheet Attached**Brief Description of Argument to be Presented:**With respect to claims 1, 9, and 17, want to discuss why the cited art does not teach claim requirement of translating a non-Unicode character string associated with a constant having a Unicode data type into a Unicode character string.With respect to claims 6, 14, and 27, want to discuss why cited art does not teach a scope specifying a portion of a program to translate, where the scope indicates to translate the entire computer program. There is no mention in the cited art of a scope or other value indicating to translate non-Unicode character strings for the specified scope - the entire computer program.With respect to claims 7, 8, 15, 16, 23, and 24, want to discuss why cited art does not teach a local scope or a constant scope that applies only to a constant, such that translation occurs only to that portion of the computer program specified by the scope.

An Interview was conducted on the above-identified application on \_\_\_\_\_.

**NOTE:**

This form should be completed by applicant and submitted to the examiner in advance of the interview (see MPEP § 712.01).
